**Note:** Project cost estimates contained in this publication represent the planning estimates of the total costs of a project. These include: preliminary engineering, right-of-way, utilities, construction, and construction engineering. These estimates are derived from analyses of current prices and are adjusted for inflation.

## Abbreviations and Definitions

Road building, like every other occupation, has its own vocabulary, its “shorthand” and its abbreviations. The following are those most commonly used in this booklet:

**Armor Coat** - A thin covering of gravel placed after the roadway surface has been sprayed with asphalt.

**Br. (Bridge)** - Structure over stream or roadway. May include new construction, reconstruction, widening or rehabilitation of existing structure. May include reconstruction of approaches.

**Conc. (Concrete)**

**Crack Seal** - The sealing of random and reflective cracks in concrete and bituminous pavements with a hot-pour type sealer.

**Culv. (Culverts)** - Pipes or concrete boxes necessary to carry water under the roadway.

**Gr. (Grading)** - The movement of earth needed to construct the project as designed.

**Grinding** - Diamond grinding to smooth the surface of a concrete pavement.

**Interchange** - Construction of a new interchange or revision of existing interchange and connecting roads.

**Joint Seal** - The replacement of the seal at the transverse and longitudinal joints in concrete pavements with a hot-pour type sealer.

**Microsurfacing** - A thin layer of asphalt slurry material spread to remove rutting and surface irregularities in asphalt pavements.

**Mill, Inlay** - The milling of a certain thickness of asphalt surfacing from the driving lanes and replacement with a like thickness of new asphalt surfacing.

**Pvmt. (Pavement)**

**Resurf. (Resurfacing)** - Additional layer of surfacing material placed on top of existing hard-surfaced road to improve rideability and strength of roadway. May include minor widening of roadway and structures.

**S. Shld. (Surfaced Shoulders)** - Hard surfacing the shoulders of an existing or new hard-surfaced road. May include minor grading and structure widening.

**Str. (Structures)** - Culverts, bridges and/or viaducts, either new or reconstructed.

**Surf. (Surfacing)** - Hard surfacing, either concrete or bituminous.

**Underpass** - Structure on roadway passing under railroad tracks.

**Urban** - Construction of divided or undivided curbed roadway in an urban area. May include grading, structure and incidental work.

**Viaduct** - Structure over a railroad or other roadway.
